and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

This is very unfair to people like myself. My cell phone is used for emergencies. I'm a visually impaired person and live on a very limited income. Because I do not drive and use public transportation my cell phone is very much needed. Our streets are not the safest in the world and there is times that things happen that I need help. Please reconsider this, not everyone is rich and can afford high cell phone bills.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Sherri Craven
